Paradise Collection – A Serene Sanctuary of Nature and Timeless Elegance

The Paradise Collection by GK GROUP is a harmonious celebration of nature›s tranquility and refined luxury, thoughtfully crafted to transform the dining table into a calm, garden-inspired sanctuary. Made from premium New Bone China — prized for its exceptional durability, subtle translucency, and smooth, luminous finish — this collection brings a sense of serene sophistication and lasting distinction to every table setting.

Inspired by the timeless beauty of a lush, idyllic garden, the Paradise Collection features an exquisite cobalt-blue and white design adorned with delicate botanical flourishes, blooming florals, and gracefully perched birds. At the heart of each plate lies a finely rendered naturalistic scene, framed by an elegant scalloped rim. The true signature of the collection, however, is its sculptural brass accents: lifelike gilded birds resting upon slender branches form both the handles and the feet, adding a striking dimension of artistry and warmth that elevates every piece into a true work of art.

Designed for both beauty and practicality, the porcelain pieces of the Paradise Collection are fully dishwasher-safe, ensuring effortless care and enduring elegance for everyday use as well as the most special gatherings.

Perfect for those who cherish the harmony of nature and classic craftsmanship, the Paradise Collection turns every meal and occasion into a peaceful, memorable experience — a true escape into elegance.

gk group will always be by your side.
